

Model G-212D EnvIRONtread® II grates with double treads are recycled, reversible and sustainable. The double-sided buffed rubber from recycled nylon-reinforced truck and airplane tires will outlast any other tread insert. The sturdy aluminum divider bars are also recycled. Durability and effectiveness ensure low life-cycle costs. This product carries a five-year warranty.

DETAIL NOTES:

- 1 - Tread rails must run perpendicular to traffic direction.
- 2 - Grate dimensions allow for clearance between grate sections and frames in the width dimension.

SPECIFICATION:

Model G-212D EnvIRONtread II grate with double tread by Arden Architectural Specialties, Inc.; with 15/32" (11.9mm) deep, alternating 6063-T52 aluminum alloy divider bars and two recycled buffed rubber treads; spaced 1-11/16" (42.9mm) o.c.; use with [type F-12 aluminum surface mount][type F-13 aluminum recessed] frame.
