

*Arden Architectural's aluminum hinge roll-up mats have all aluminum rails. Unlike mats with hidden vinyl under-channels or vinyl rails, aluminum rail mats are suitable for commercial applications. They maintain their integrity in all weather conditions so treads stay in the rails.*

**DETAIL NOTES:**

- 1 - Tread rails must run perpendicular to traffic direction.
- 2 - Mat dimensions allow for clearance between sections and frames in the width dimension only. Trim the filler provided to ensure a tight fit in the traffic direction.

**SPECIFICATION:**

MatDesign M-800 abrasive insert tread, aluminum hinge mat by Arden Architectural Specialties, Inc.; with 3/8" (9.5mm) deep, 6063-T52 aluminum alloy rails, with treads of flexible grit-tape bonded to rigid recycled/bio-based plastic inserts; spaced 2" (50.8mm) o.c.; with integral aluminum hinges; use with [type F-3 aluminum recessed] [type F-4 aluminum surface mount] [type F-5 attached surface mount] [type F-6 aluminum thin line] frame.
